

BEARS ARE IN HONEY

They Hammered Both High and Low Stocks Yesterday

AND STARTED WILD RUMORS

That Had the Desired Results Despite the Most Strenuous Denials Over 400,000 Shares Sold.

New York, May 10.—Money on call has been steady, ranging from 5 to 6 per cent, last loan at 3 per cent, and closing offered at 3 per cent.

Prime mercantile paper, \$5 1/2 per cent.

Postal rates, \$4.85/4.80/4.

Government bonds have been lower.

The stock market worked toward a decidedly lower range of prices again today. The rallies which occurred at intervals were of short duration, and as the day drew to a close the bears became bolder and attacked both the high and low priced shares with great vigor. In addition to the talk about a most unfavorable crop report, the street was flooded with rumors concerning the embarrassment of brokerage concerns here and in Philadelphia, and of the probable appointment of receivers for the Northern Pacific and Erie. These were not well founded, but they were made to do service nevertheless.

The strength of sterling exchange as a result of higher rates of discount in the open market in London revived the talk of gold exports, but thus far no engagements for this week's steamers are reported. The stocks reached a total of 419,306 shares against 333,822 yesterday.
